

## 90. POLICY FOR ATTENDANCE DURING COVID PANDEMIC

The nursery is committed to ensuring that we provide as safe an environment for the children and staff as possible. With this in mind there are new protocols that we are asking everyone to adhere to:

- If your child has a temperature of over 38 degrees and/or a new continuous cough we will not be able to allow them to come to the Nursery for any reason until they have either been in isolation for 10 days or had a PCR test. The rest of the family should be isolating for a period of 10 days unless a negative test result has been received.
- If you are contact traced you are required to isolate for a period of 10 days. If your child was with you they would also be required to isolate and would not be able to attend nursery.
- If your child has a Covid 19 test and it comes back as negative we will then be able to have your child back at the nursery. Please note that we do not accept the results of a Lateral Flow Test in cases where a child is displaying symptoms of Covid.
- We will not be able to administer medication during this period until such time that the threat level of the Covid Pandemic is reduced. If your child is on any form of medication you will need to either ensure the timings of the medication do not fall within the time that your child is at Nursery or arrange to come to the nursery and administer the medication. (This does not include long term medications such as asthma inhalers etc).

I would like to point out that this short term policy is purely in place to protect the children and staff. I would appreciate your understanding and co-operation in this. In cases where the Nursery has to close due to Covid we will not be charging any fees.
